Tartu/Estonia

## **Recommendations**

1. To have system level strategic goals for the digitalization in formal and informal and non-formal education.
2. Digital competences focus in LLL, awareness raising about ITC skills and trainings for young people and retraining and upskilling adults. ITC skills in each profession and in IT as a profession.
3. Pedagogical innovation (learning environment & resources, roles, educational technologists at schools, teacher training).
4. Change in schools management and leading.
5. Developments in education infrastructure, to ensure broadband coverage and fast, secure internet access.
6. Education information systems development and public e-services generally in cooperation with private sector, e-Society trainings, access to e-services etc.^
7. Anticipation and monitoring systems for labour and skills demand.
